Response

# Post-Emergency Response

WAC 296-824-700

## Rule

WAC 296-824-70005

Follow the appropriate post-emergency response requirements

### Important:

- Post-emergency response is the stage of the emergency response where the immediate threat from the release has been stabilized or eliminated, and clean-up of the site has started.
- When clean-up is done by the employees who were part of the initial emergency response, the employees aren't covered by this section (however, training, PPE, and other requirements in WAC 296-824-20005 through 296-824-60015 apply to these employees).

### You must

- (1) Follow Table 10 to determine which requirements apply to your post-emergency response activities.
- (2) Maintain clean-up equipment as specified in Table 10.
